

Academic Tools and Resources

Session Title	Session Description	Recording Link
<p>Getting Started with Google Classroom (Beginner) Heather Hooppaw</p>	<p>Google Classroom isn't just a place to post homework; it can help improve your ability to connect with your students, respond to their needs, and challenge them with personalized assignments. Come learn how to set-up your very own Google Classroom and get up and running with remote teaching & learning quickly!</p>	<p>http://kea.org/uploads/media/video/beginner.mp4</p>
<p>Leveling Up Google Slides for Seesaw and Google Classroom Bill Van Loo & Sarah Van Loo</p>	<p>Google Slides is a tool that allows educators to share a variety of information with students in a dynamic fashion. In this course, participants will learn fundamental principles of information design that will empower them to make high-quality Google Slides presentations. Participants will then learn how to integrate Google Slides with Seesaw and Google Classroom for presenting information, giving directions, and creating templates for students to make their own presentations.</p>	<p>http://kea.org/uploads/media/video/leveling_up.mp4</p>
<p>Google Classroom (Advanced) Heather Hooppaw & Karma Nordstrom</p>	<p>Did you know that there are hundreds of apps that can be integrated into Google Classroom? In this advanced training, come learn how to use some of these integrations to make more complex assignments, provide an interactive learning environment, utilize tools for one-on-one student support and differentiate work to fit your students' needs.</p>	<p>http://kea.org/uploads/media/video/advanced.mp4</p>
<p>Bitmojis Reaching the Classroom and Beyond Kaysin Higgins</p>	<p>Join me to learn how to create an interactive and engaging virtual classroom using your Bitmoji. Once created, you can use your Bitmoji classroom for distance learning or in-person learning. The possibilities are endless!</p>	<p>http://kea.org/uploads/media/video/bitmojis.mp4</p>
<p>Learn at Home Resources from KET Education: for Teachers edition Brian Spellman- KET</p>	<p>Learn about KET Education's free services and resources to help you continue teaching your students during the global COVID-19 health crisis. We are here to help Kentucky educators with on-air programming and online PD & instructional resources. This webinar includes an overview of PBS Learning Media with new NTI curated collection.</p>	<p>http://kea.org/uploads/media/video/home-ket.mp4</p>
<p>Differentiating & Team Teaching: Distance Learning Edition Ann Marie Borders & Ellen Brooks</p>	<p>Tools like Seesaw, Flipgrid and Google Classroom are beloved by educators across the nation, and can be utilized to serve our students with direct, targeted assignments via enrollment in multiple classes or with the use of Co-Teachers. Entire grade levels may benefit from a shared space, and special area teachers and support staff can be linked to their students more easily. Get some strategies for possibilities of</p>	<p>http://kea.org/uploads/media/video/differentiating.mp4</p>

	maintaining multiple groups of students in classes, and including Co-Teachers - or getting yourself included in pre-existing ones!
