<p style="text-align: center;">Pivoting Family Support Programs During a Pandemic Molly Wesley &amp; Amber Onkst</p>	<p>Discuss how schools can pivot programming and resources to a virtual platform. During a pandemic, the structure of supports for families can change drastically. Educators are used to sending a student to the FRYSC. Now your student is not with you! But that doesn't mean that your FRYSC has stopped supporting families. FRYSC's across the state are making changes in community partnerships, service delivery and programming to ensure that families have all of the support they need to address inequities that might be further expanded due to a crisis! Join us to discuss pivoting supports while also ensuring all students have access including how FRYSC's partner with building teachers to ensure student safety and success throughout the course of virtual learning!</p>	<p style="text-align: center;"><a href="http://kea.org/uploads/media/video/family-support.mp4">http://kea.org/uploads/media/video/family-support.mp4</a></p>

<p>Creating a Cozy Classroom While Social Distancing LaTonya Rowe</p>	<p>Join me as we create an in-person and/or virtual learning environment that is inviting and fully engages students after the COVID 19.</p>	<p><a href="http://kea.org/uploads/media/video/cozy.mp4">http://kea.org/uploads/media/video/cozy.mp4</a></p>
